| Brake Disc Replacement –
Vehicles With Less Than 1,000 Miles –
Warranty Policy Change | MODEL 2006 MY-ON
XJ range
VIN   G49701-ON |

Issue:

The current policy of replacing brake discs in pairs on the same axle for low time in-service vehicles (with less than 1,000 miles) has now been rescinded. The policy for replacing brake discs under warranty on these vehicles has been revised and is detailed below.

The failed part **only** shall be changed under warranty if **all** the following criteria are met:

• The vehicle has completed less than 1,000 miles (1,600 kilometers).

• Only one brake disc across an axle exhibits the fault.

• The part number of the replacement disc is identical to that being removed.

Action:

Effective immediately, observe the above points when replacing brake discs under warranty.
