Updated Front Brake Discs and Calipers – Running Change

MODEL 1999 MY-ON
XK8 Range

VIN 037348-ON

Issue:

Starting with VIN 037348, all XK8 vehicles are equipped with the larger 325 mm front brake discs and matching calipers. XK8 vehicles now have the same specification front brakes as XKR and XJR vehicles.

As a result, the 16 inch wheels advertised in the 1999 Model Year Accessory Brochure, will not fit vehicles from the above VIN.

Action:

Advise customers who are considering purchasing 16 inch wheels for a winter tire set, of the above specification change.

The Jaguar approved winter tires are the following:

XK8 - Pirelli Winter 210 Performance M+S 245/50 R 17

XKR - Pirelli Winter 210 Performance M+S 245/45 R 18

For more information on wheel and tire specification, refer to section 6 of the owner's handbook.

Warranty Information:
